The logo for CASA consists of a geometric design of overlapping triangles forming a larger shape, with the letters "C", "A", "S", and "A" arranged horizontally below it.

C A S A

A large, white, stylized graphic of a building with a jagged roofline, positioned to the left of the main title.

2ND EDITION
**FIRE SAFETY &
CLADDING**

20 – 21 NOVEMBER 2018 | SYDNEY

GLIMPSES FROM THE PAST EVENT

20+
Speakers

80+
Attendees

16+
Hours of Networking & Business
Enhancement Opportunity

Delegates from Industry

- > Architectural
- > Building Materials
- > Chemicals
- > Computer Software
- > Construction
- > Design
- > Government & Non Profit
- > Legal
- > Management Consulting
- > Manufacturing

What Did The Attendees Say:

Great event! Very informative.
– **Kingspan Insulated Panels**

Very informative and comprehensive.
– **Sergon Building Consultants**

A great range of speakers and topics. I look forward to the next one.
– **Lander & Rogers**

Excellent conference in regards to the issue of combustible cladding on buildings.
– **Cumberland Council**

This event had experts from all parts of the building industry. The networking opportunity was excellent!
– **Johnson Controls**

Very informative conference with a wide range of presentations.
– **Cundall**

I have been to a few of conferences on this theme and this was by far the best one I attended. Holistic approach to fire safety and cladding issues in buildings.
– **City of Port Phillip**

Marvellous conference! All building practitioners, owners, insurers, and anyone with an interest in the building cladding safety should attend this conference.
– **Red Fire Engineers**

2ND EDITION

FIRE SAFETY & CLADDING

Disaster is often the catalyst for change to bring learning and awareness across the industry. The 2017 Grenfell Tower fire in London, and the 2014 Lacrosse Tower fire in Melbourne are examples of that. It has sprung government bodies and associations to work on specific measures to address the fire safety risks associated with external wall cladding in buildings.

In NSW, the government has introduced new laws relating to buildings with combustible cladding. The latest of these, the Environmental Planning and Assessment Amendment (Identification of Buildings with Combustible Cladding) Regulation 2018 will commence on 22 October 2018. The Regulation now makes provision for the identification of, and collection of information about, buildings to which combustible cladding has been applied.

The Draft is driven by the term “combustible cladding”, and that is a sum reflection of what is driving the changes in this landscape.

Corpolinx, therefore, is hosting the **2nd Edition Fire Safety and Cladding Summit**, scheduled for **20-21 November 2018**. The event has been designed to bring together fire and construction industry mainly focus in fire safety practice, engineering and risk management involved in cladding by exclusive networking sessions, professional and interactive panel discussions as well as topical case studies addressing the challenges faced and to assess solutions and services in this space to help achieve business outcomes.

EVENT FEATURES:

HIGHLY INTERACTIVE involving all stakeholders from Regulators, Developers, Owners, Designers, Contractors, Manufacturer, Insurers & Lawyers to address the ambiguities in policies & standards with poor enforcements

PANEL DISCUSSIONS on the latest issues on design, technology, innovation and “what’s next” in NSW

THE MOST UPTODATE INFORMATION on the varying Insurance Responses to the cladding crisis

FOCUS ON on-ground implementation of policies and standards

OPEN DISCUSSION on adopting new technologies and mitigating Risks

KEY TAKEAWAY:

Better protect residents and civilians from Non-Conforming Building Product-related incident

Learn to protect existing buildings by implementing best practises for fire safety

Risk mitigation through BIM and Parametric Modeling

New design approaches to ensure quality and safety without affecting cost

WHO SHOULD ATTEND?

- > Government and industry regulatory bodies and associations
- > Building owners and asset managers
- > Developers and construction companies
- > Fire and rescue services
- > Certifiers, accreditors and surveyors
- > Building material importers and suppliers
- > Designers and architects
- > Insurers, lawyers and strata bodies
- > Fire safety and risk officials, engineers and technical managers
- > Fire protection companies and solution providers

KEYNOTE SPEAKER

JOHN TANSEY

Executive Officer, **NSW Fire Safety and External Wall Cladding Taskforce**, Executive Director, **Regulatory Policy, Better Regulation Division, Department of Finance, Services & Innovation NSW**

KEY SPEAKERS

DR. JONATHAN BARNETT

Managing Director
Basic Expert Pty Ltd

CHARLES THORNLEY

Partner
Lander & Rogers Lawyers

CHARLES FORTIN

Managing Director
Collard Maxwell Architects

BLAIR STRATTON

Manager – Major Projects
Red Fire Engineers Pty Ltd

NATHAN WHITE

Fire Engineering Team Leader | Infrastructure Technologies and Testing Services, **CSIRO**

KIM LOVEGROVE RML, FAIB

Consultant Lawyer
Lovegrove & Cotton Lawyers

KEY SPEAKERS

PELLE ZETTERSTRÖM

Technical Director
Olsson Fire & Risk

PROFESSOR GUAN YEOH

UNSW Australia

JAMES THOMSON

Senior Adviser - Standards and Regulation
Ai Group

SENIOR DIRECTOR

Non-Conforming Building Products Audit
Taskforce

Building Policy and Asset Management | Department of Housing and Public Works

DAY ONE

20 NOVEMBER 2018

8:00 REGISTRATION AND WELCOME COFFEE

8:50 CHAIRPERSON'S OPENING REMARKS

9:00 **GOVERNMENT'S KEYNOTE ADDRESS:**
Legislative Responses to the Cladding Crisis and the Onset of Toughest Certification Reform

9:30 **PANEL DISCUSSION: High-Risk Buildings in Australia - Where to from here?**

- What are the challenges for the construction industry in responding to the cladding crisis
- Avoiding unnecessary re-work and soaring insurance premiums for non-compliant building owners
- How can property owners and local councils act now to help prevent another disaster?

10:10 **Science of cladding fires**

- Cladding materials, how they burn and which materials are a risk
- What tests are available and what information do they provide
- Test limitations, applicability to risk and compliance

Nathan White

Fire Engineering Team Leader | Infrastructure Technologies and Testing Services

CSIRO

10:40 **Speed Networking Session**

A structured interactive session designed to help you expand your network through one-on-one focused conversation.

11:00 NETWORKING TEA/COFFEE BREAK

11:20 **Redesigning building and fire regulation in 2019 and beyond**

- The need for world's best practice building regulations and what it entails
- The imperative of cross-jurisdictional fire regulation harmonization
- The best practice fire regulation RND necessity
- Fire regulation policy must follow Fire Science

Kim Lovegrove RML FAIB | Consultant
Lawyer Lovegrove & Cotton

11:50 **PANEL DISCUSSION: Assessing most common errors in design and approaches to maximize quality, safety, and building integrity**

- Cladding Fires in NSW
- Preventative Measures

12:30 **Developing a Performance Based Solution Design**

Pelle Zetterström | Technical Director, **Olsson Fire & risk**

13:00 NETWORKING LUNCHEON

DAY ONE

20 NOVEMBER 2018

14:00 **PANEL DISCUSSION: Innovation and best practices for fire safety in existing buildings**

- Understanding building requirements for code-compliant external cladding
- Fire safety upgrades and compliance with current regulation by keeping the building fabric in mind
- Compliance with insurance requirements

14:40 **The NSW-Based Compliance Process – Start to Finish**

15:10 NETWORKING TEA/COFFEE BREAK

15:30 **An Innovative Solution to Exterior Fire Protection for High-Rise Buildings**

- Identifying issues with reaction time to fire and issues with fighting exterior fires on buildings with combustible cladding materials
- Introducing an autonomous fire suppression system designed to detect and suppress fires on the exterior of high-rise buildings
- Providing an overview of capability of this technology and its application in high-rise buildings, including review of test results

16:00 **Innovation Around Flame Retardants**

16:30 CLOSING REMARKS FROM THE CHAIRPERSON

16:50 END OF DAY 1

DAY TWO

21 NOVEMBER 2018

8:00 REGISTRATION AND WELCOME COFFEE

8:50 CHAIRPERSON'S OPENING REMARKS

9:00 **KEYNOTE ADDRESS: NSW Taskforce Response to the Cladding Issue – Then & Right Now**

- Mission and objectives of the taskforce
- Progress and achievements to date
- Next set of steps in NSW

John Tansey | Executive Officer, NSW Fire Safety and External Wall Cladding Taskforce, Executive Director, Regulatory Policy, Better Regulation Division, **Department of Finance, Services & Innovation NSW**

9:30 **A holistic approach to ACP remediation; what are your options?**

- Can fire engineering solutions be provided, in practical terms?
- What form would a fire engineering solution for combustible ACP take?
- Liability vs. Accountability; and a realistic way forward for all stakeholders.

Mr. Charles Fortin | Managing Director
Collard Maxwell Architects

10:00 **The role and responsibilities of Councils and Municipal Building Surveyors**

- The role of Councils and Municipal Building Surveyors in:
 - Identifying/dealing with problem buildings; and
 - Enforcing compliance with the Building Act.
- The liability risks faced by Councils and Municipal Building Surveyors.
- Case studies.
- Practical tips on mitigating the risks.

10:30 NETWORKING COFFEE BREAK

11:00 **Varying Insurance Responses to the Cladding Crisis**

- Professional Indemnity Response
- Property & Strata Insurance Response
- Cladding Exclusions
- Underwriting Responses & Pricing
- Testing of ACP Exclusion Clauses in a Legal Context

Charles Thornley | Partner, **Lander & Rogers Lawyers**

11:30 **Fire Safety Engineering Analysis**

- Can fire engineering solutions be provided in practical terms?

12:00 **PANEL DISCUSSION: What is the supply chain saying about building product?**

- What does product conformance for the building supply chain look like?
- What information should product suppliers be expected to provide to architects/building certifiers/builders?
- What do the architects/building certifiers need to request from product suppliers?

12:50 NETWORKING LUNCH

14:00 Remediation Solutions: Dealing with buildings bearing non-compliant cladding in various stages.

- Developing solutions for rectifications
- Ways existing buildings can be brought up to code
- What products meet requirements?
- Products for rectification
- What are the costs and implications?
- Case studies on other defective or unsafe construction products and their remediation

Mr. Blair Stratton | Manager – Major Projects
Red Fire Engineers Pty Ltd

14:30 The A-Z Auditing Regime of Existing Buildings

- What it takes to do through audits?
- What products meet the requirements?
- The question of acceptability

Private Certifier

15:00 Cladding: part of a bigger NCBP issue!

- Perspectives on the non-complying/conforming building product issue in Australia
- Unintended impacts of regulatory action on cladding
- The need for regulatory certainty

James Thomson | Senior Adviser - Standards and Regulation, **Ai Group**

15.30 ROUNDTABLE DISCUSSION SESSIONS

16.10 CLOSING REMARKS FROM THE CHAIRPERSON

16.30 END OF CONFERENCE AND FAREWELL COFFEE

Masterclass: Risk Management Masterclass

DELEGATE PRICE LIST

| PACKAGE | EARLY-BIRD DISCOUNT* | STANDARD PRICE |
|---------------------------------|---------------------------|----------------------|
| | Before 26 October 2018 | |
| CONFERENCE ONLY | \$2,099 + GST | \$2,299 + GST |
| CONFERENCE + MASTERCLASS | \$2,899 + GST | \$3,099 + GST |

VENDOR PRICE LIST

| PACKAGE | EARLY-BIRD DISCOUNT* | STANDARD PRICE |
|---------------------------------|---------------------------|----------------------|
| | Before 26 October 2018 | |
| CONFERENCE ONLY | \$2,699 + GST | \$2,899 + GST |
| CONFERENCE + MASTERCLASS | \$3,499 + GST | \$3,699 + GST |

*Early bird discount rates are subject to availability on a first come first serve and therefore may end before advertised date. Please book early to avoid disappointment.

PLEASE NOTE:

- A credit card surcharge of 1.5% will be added to all payments made by credit card
- Payment not made at the time of registration will be subject to a \$99 service charge.
- All 'Early Bird' discounts require payment at time of registration and before the cut-off date in order to receive any discount.
- Corpoinx reserves the right to determine who is a vendor/solution provider

TERMS AND CONDITIONS:

1. REGISTRATION

By agreeing to these Terms and Conditions the delegate recognise that they are registering to attend an Event run by Corpoinx. Upon completion and return of the registration form, a confirmation email will be sent to the delegate's nominated email address. Please ensure all details on the registration are correct, or notify Corpoinx of any errors within 2 days of confirmation.

2. PAYMENT

Full payment (including GST) is due and payable by the delegate no later than 5 days of the invoice being issued by Corpoinx. All payments must be cleared prior to the Event commencement date. Corpoinx reserves the right to cancel registration and refuse entry if payment has not been received in full by this date.

3. SUBSTITUTION AND CANCELLATION

The Event pass is valid for registered delegates only, and pass sharing is prohibited. Registered delegates who are unable to attend the Event may nominate a substitute from their organisation free of charge up to 24 hours prior to Event commencement. If substitution is not possible, a delegate may request to cancel their registration for a full credit to use on another Corpoinx Event, valid for up to one year from date of issue. All cancellation requests must be received in writing by Corpoinx a minimum of 28 days before the Event commencement date. An administration fee of \$250 + GST will apply to any cancellations. Cancellations received after this date will not be eligible for a credit.

4. EVENT AGENDA AND DATE

All Event details are accurate at the time of publication. Corpoinx reserves the right to make alterations to the Event programme, speakers, venue and timings. In the instance of a necessary cancellation or date change to the Event, delegates will be notified via email. Changes to the programme or speakers will appear on the Event website. Under no circumstances will Corpoinx be held liable for any expenditure, damage or loss incurred as a result of changes to the Event.

5. PRIVACY

Any personal information collected by Corpoinx is governed by privacy laws. The contact details of registered delegates will be available to sponsors and other attending delegates of the Event for networking purposes. Delegates who do not wish to be included on this list need to advise Corpoinx at the time of registration.
